

## BIRZEIT UNIVERSITY

On the third consecutive day, the solidarity opened hunger strike remains in existence. Our solidarity is to stand with the Palestinian prisoners who are observing a hunger strike for the thirteenth day. In order to achieve their just human demands to secure their legitimate humanitarian rights regarding adequate air, water, medicine and sun. We stand against the cruel mistreatment represented by the policy of collective punishment and the isolation section in Beer Sheva and Nitsan prisons, in addition to the cultural and social isolation.

Such policies show the real face of Israel which claims democracy. We are not willing for peace, peace and democracy do not exist in the Israeli policy of harassment.

We striking students of Birzeit university, urgently appeal to the international and local community to take immediate action to rescue the lives of thousands of Captive Palestinians who are dying day after day.

We strongly emphasize "To die hungry is easier than to die under the Israeli torture".

Long live our Captive movement and their just demands.

The Student Council
